

Vision 2032

15 Flagship Multiplication Centers in:

- Sudan**
- South Sudan**
- DR Congo**

We want to build 15 Flagship Church Multiplication Centers by 2032.

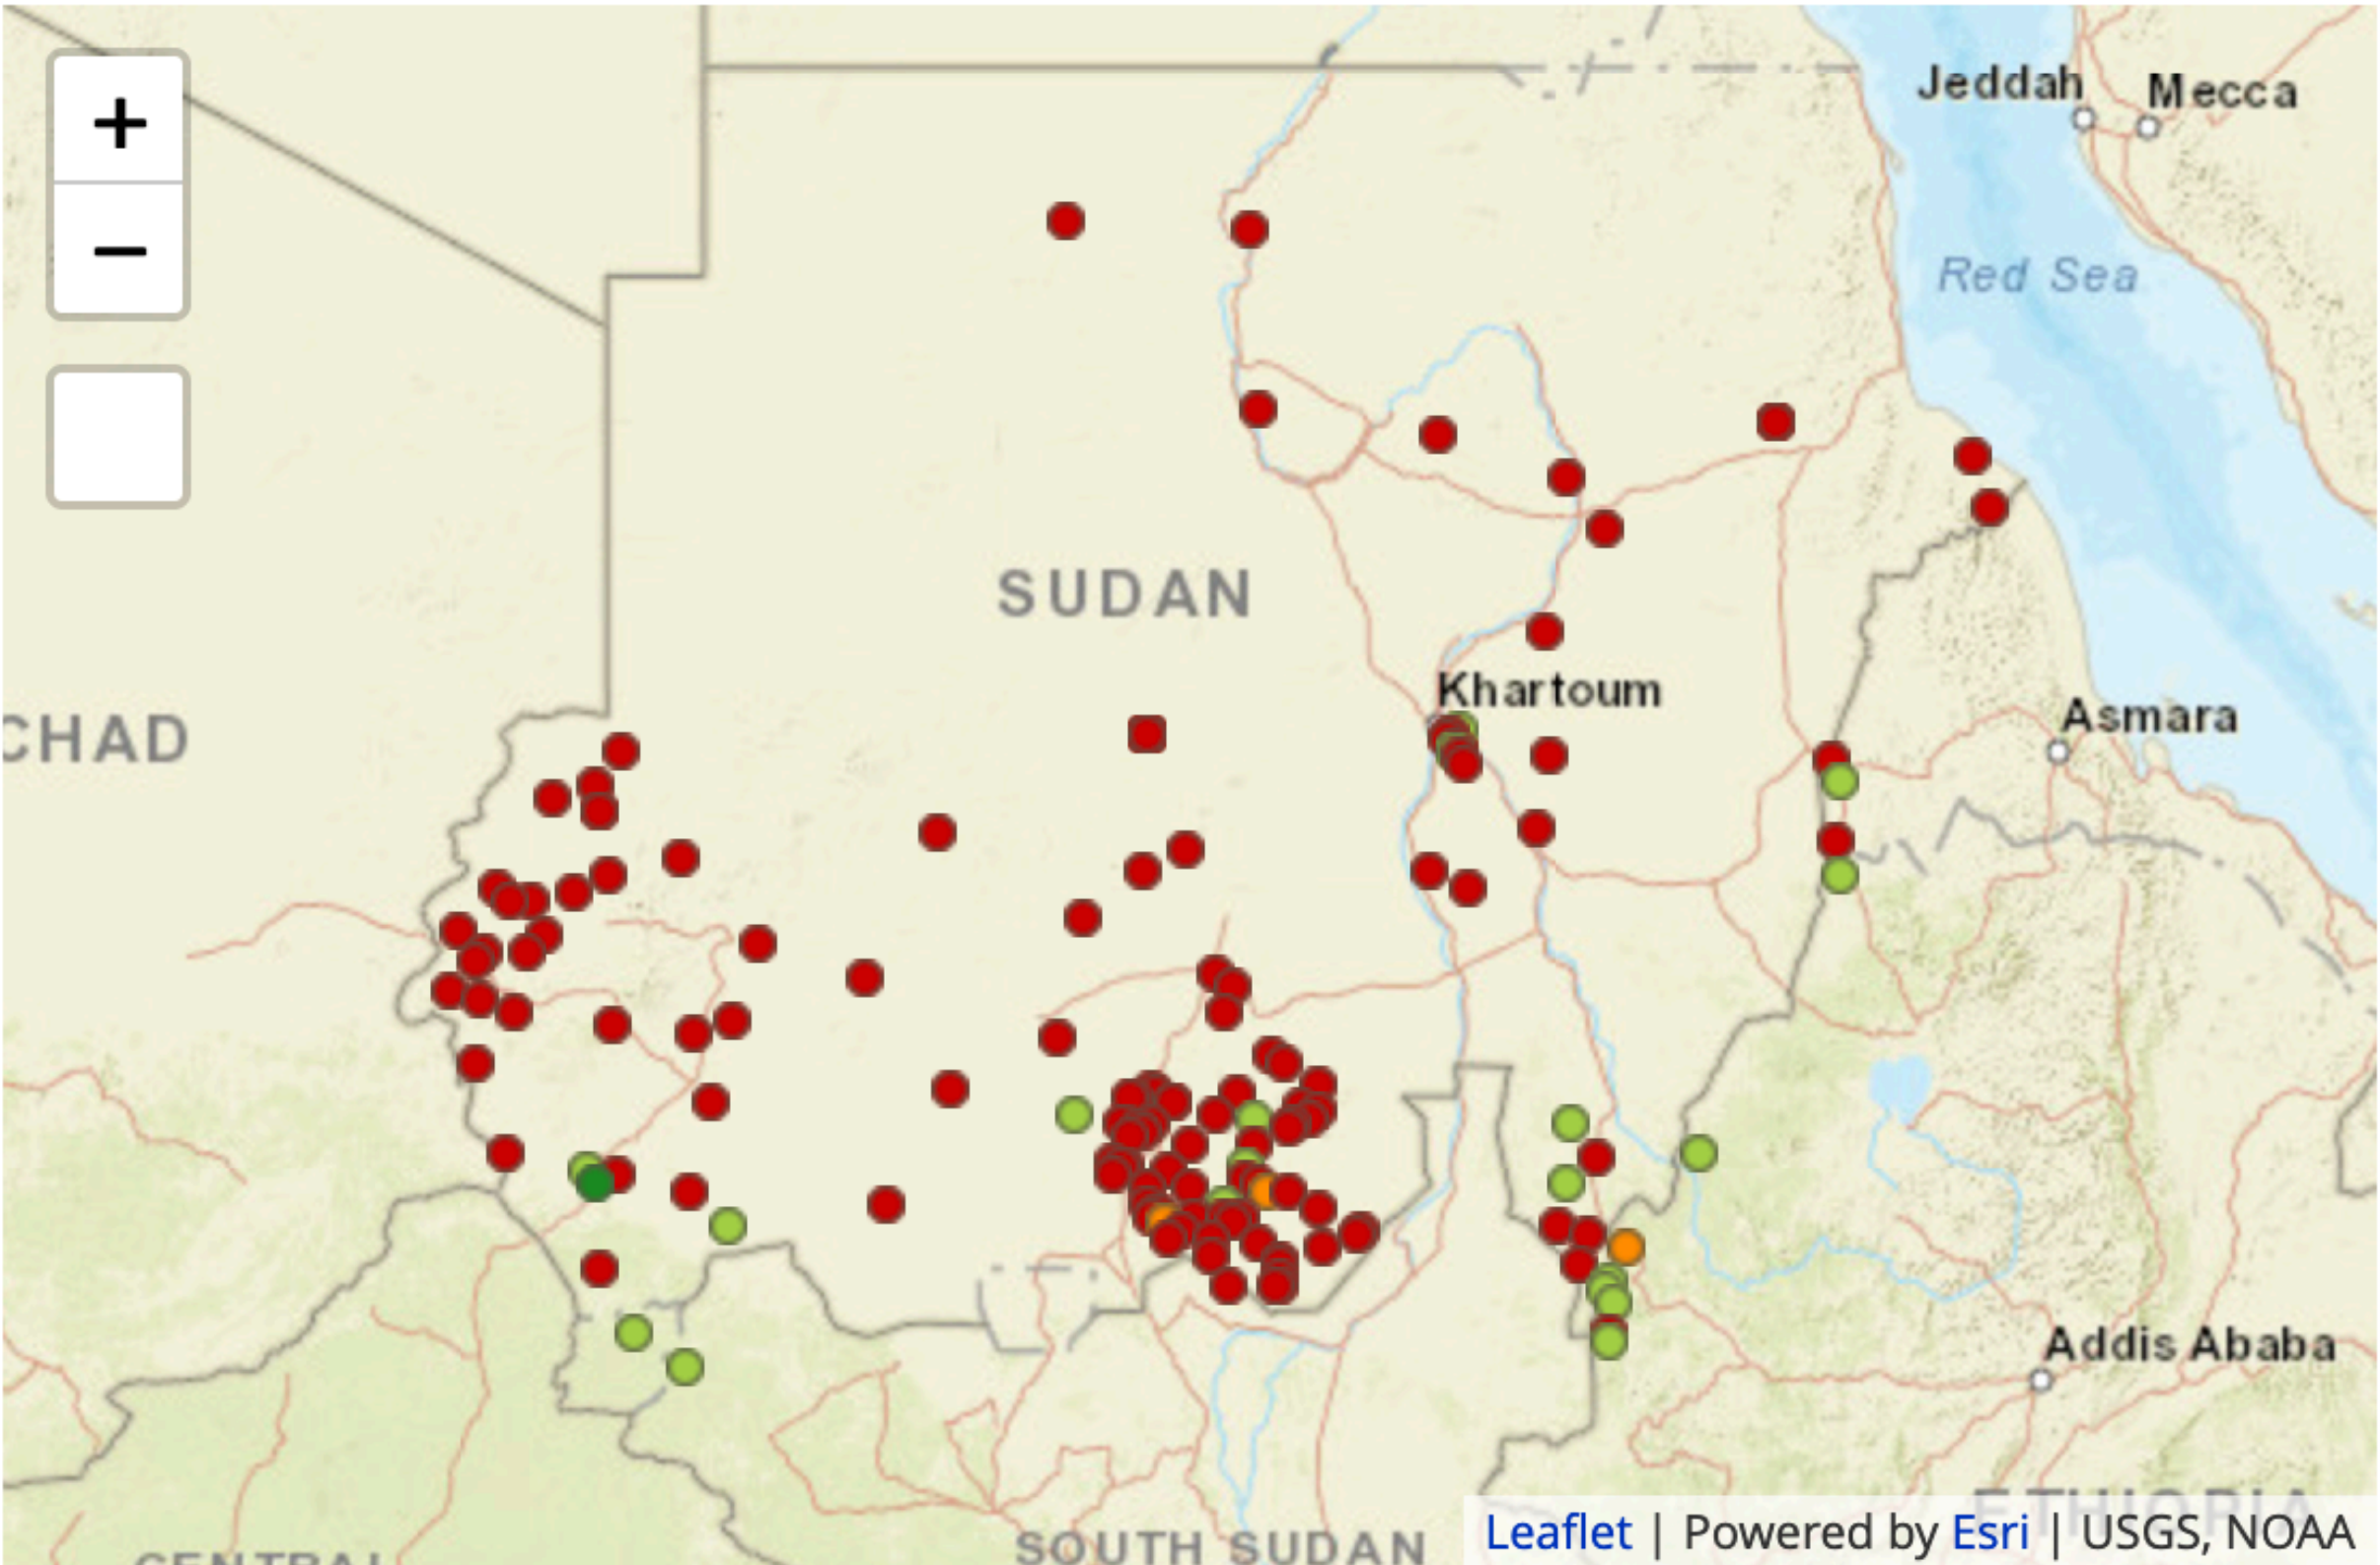

Each location will have:

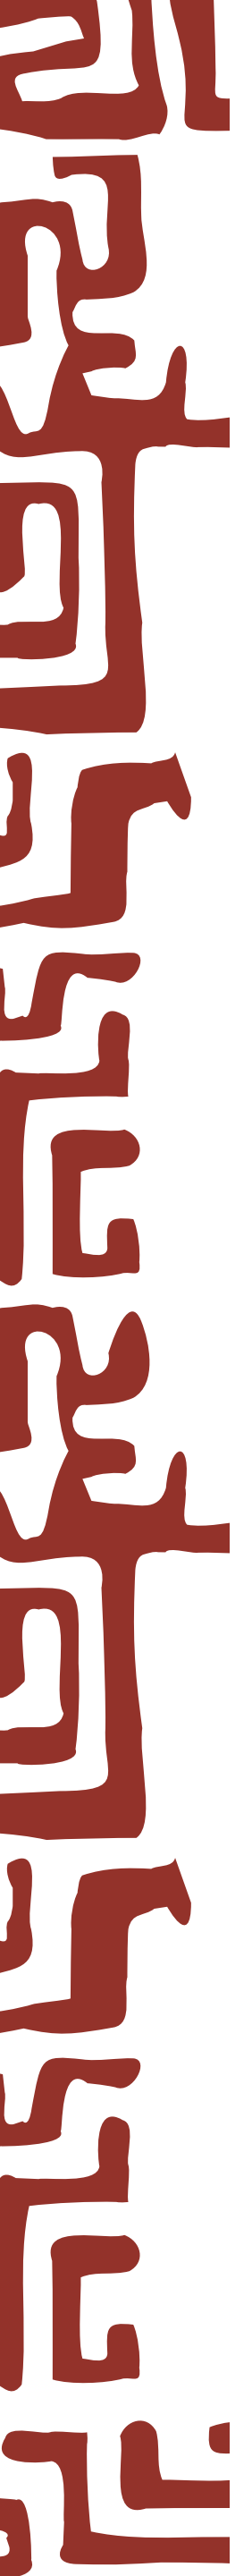

- **A Flagship Church**
- **A Church-planter Training Center**
- **A Primary or Secondary School**
- **A Clean Water System**
- **A Pharmacy**
- **A Radio Station**

Why? Ultimately to bring the gospel to those who've never heard.

Country: Sudan

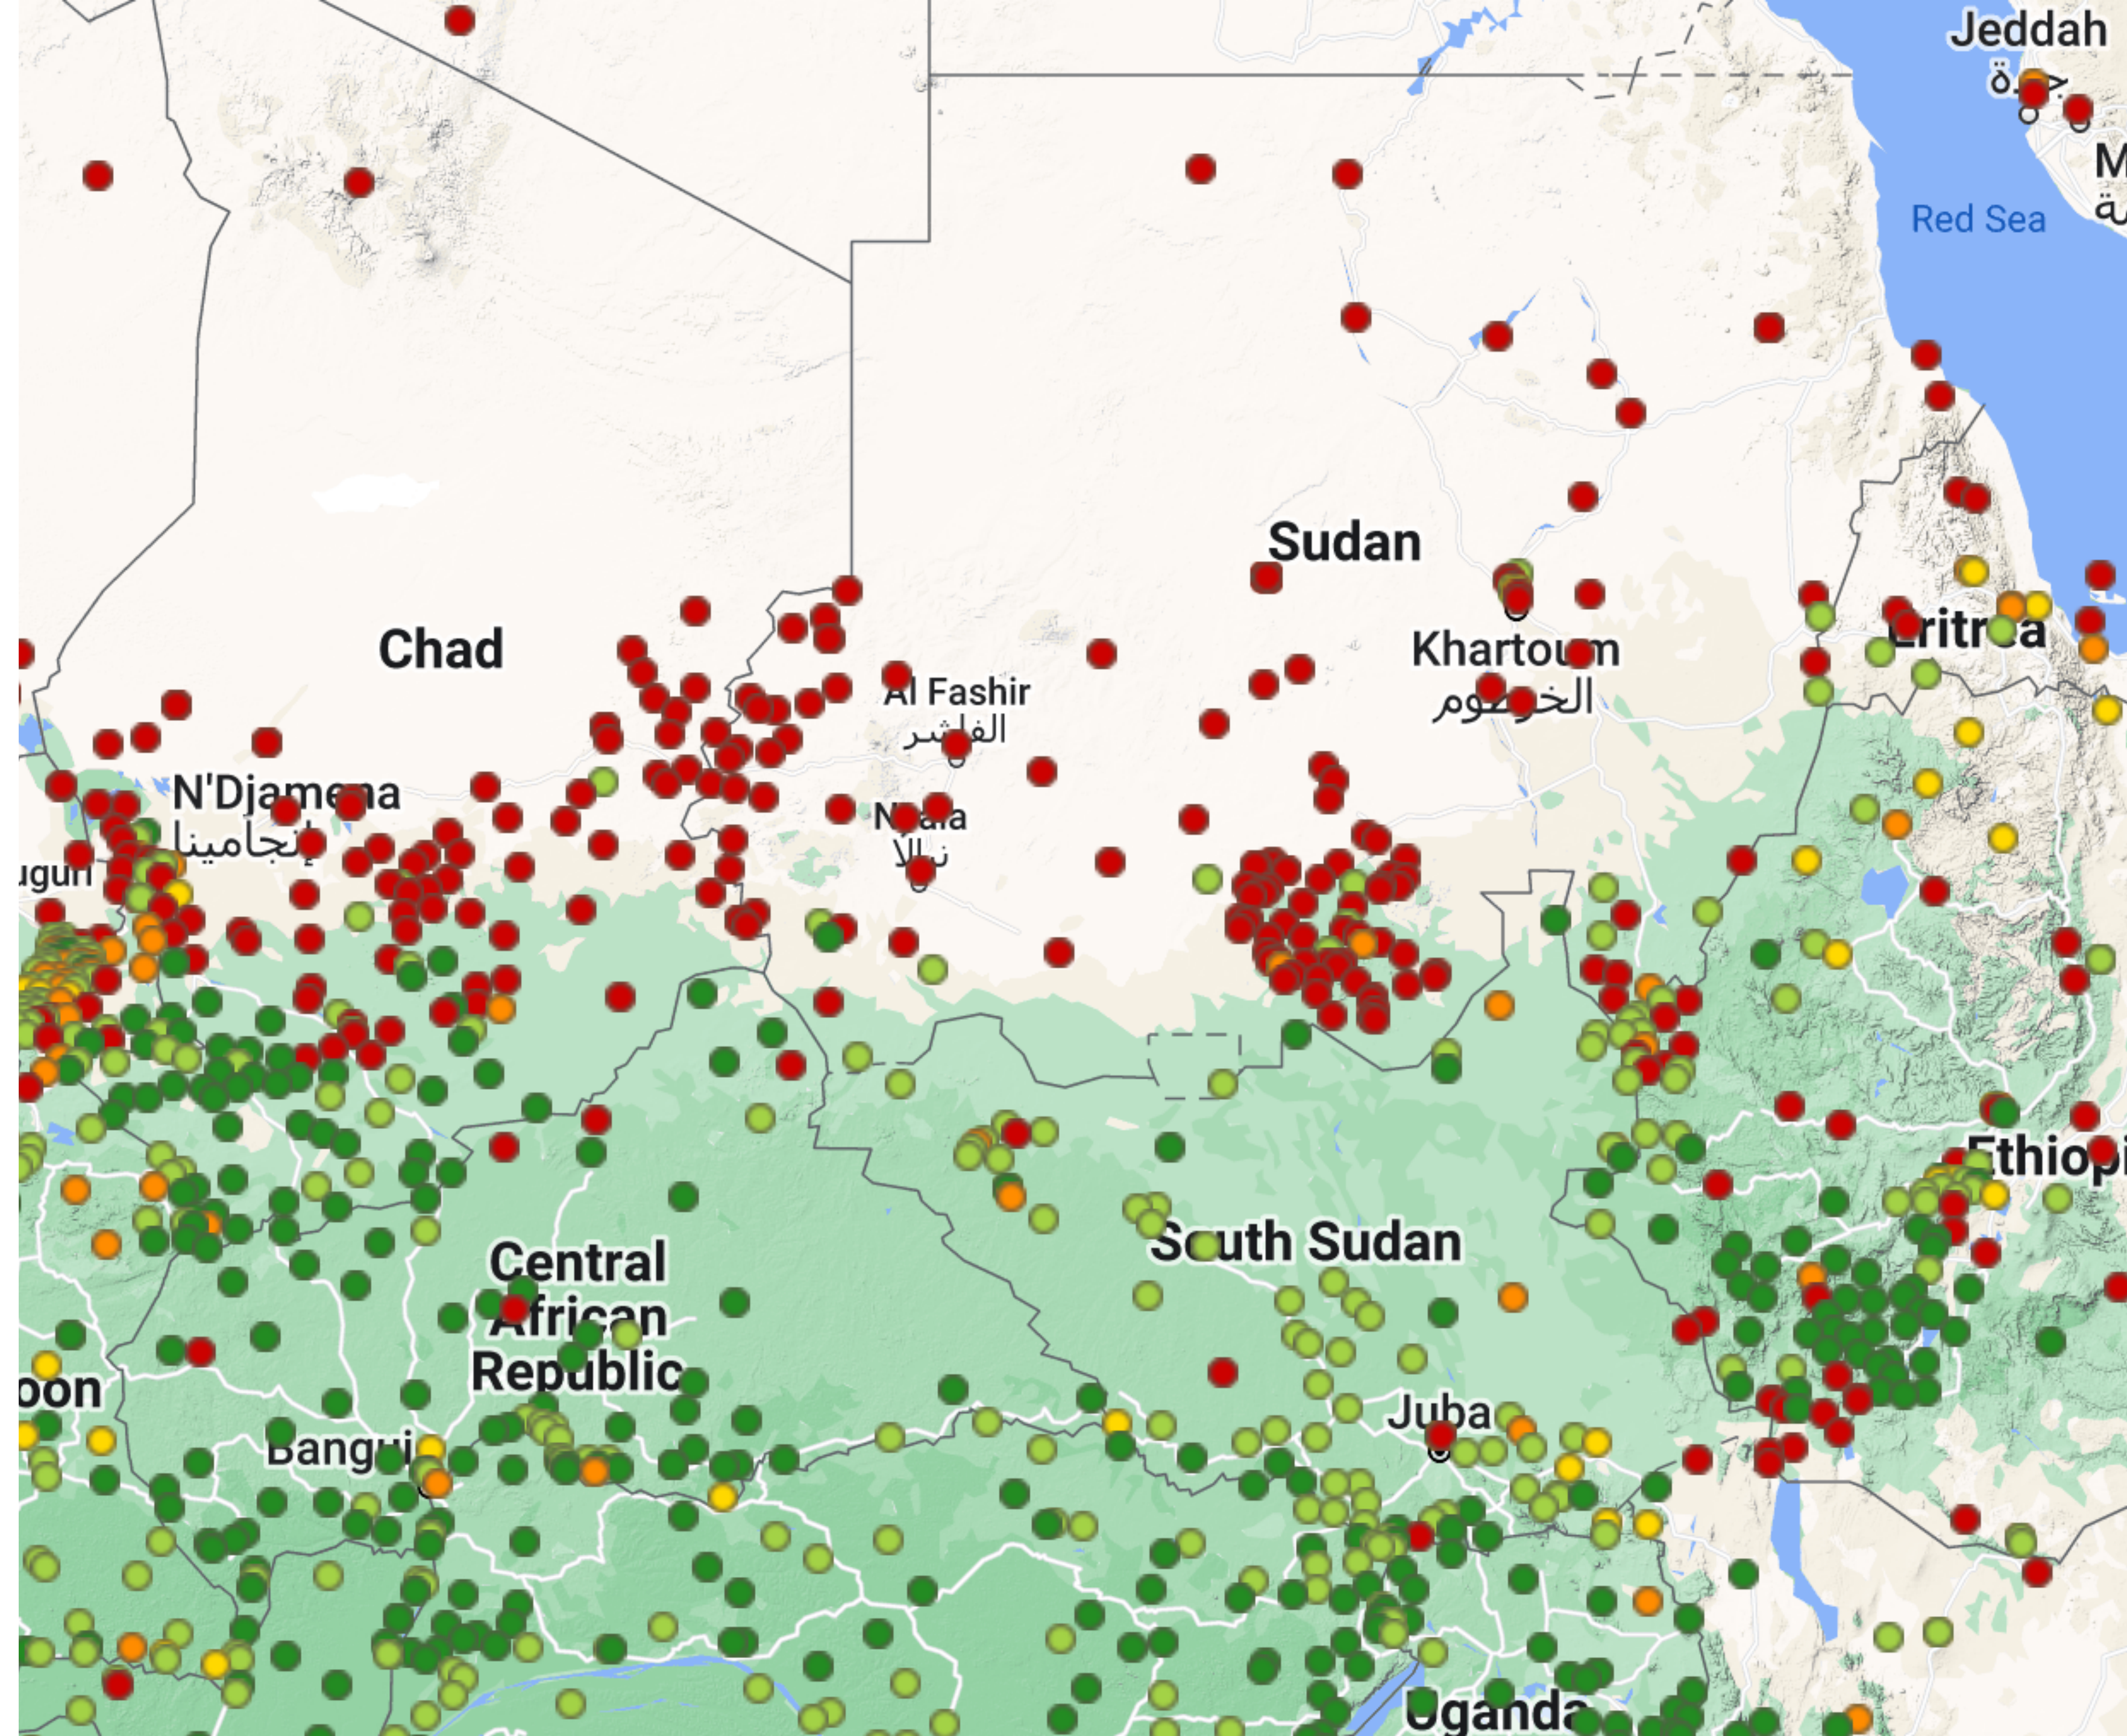

Number of People Groups 170	People Groups Unreached 141 (82.9%)	Progress Level 
Total Population 47,856,000	Population in Unreached 45,483,000 (95.0%)	Largest Religion Islam (91.9%)
% Christian Adherent 3.78%	% Evangelical 0.68%	Evangelical Annual Growth Rate 0.0% (Global Rate = 2.6%)

Our Why:
To turn these **red**
dots **green**.

**This is our
current
footprint.**

Our Why.

We want each church to seat between 500-600 people. We've shown that if we preach giving and tithing, a church this size can:

- 1. Pay its pastor.**
- 2. Send indigenous missionaries out.**

The first Flagship Church in Nimule, South Sudan opened April 2023.

If you add a school, we've shown we can run them in the black, for example:

~500 kids paying ~\$100 a year = \$50,000 in gross revenue. (x15) Net revenue varies.

These two buildings are a high school which opened Feb 2024.

After the capital expense and an initial inventory stocking, pharmacies not only bless the local community, but provides revenue as well.

The Church + the School + the Pharmacy all generate revenue.

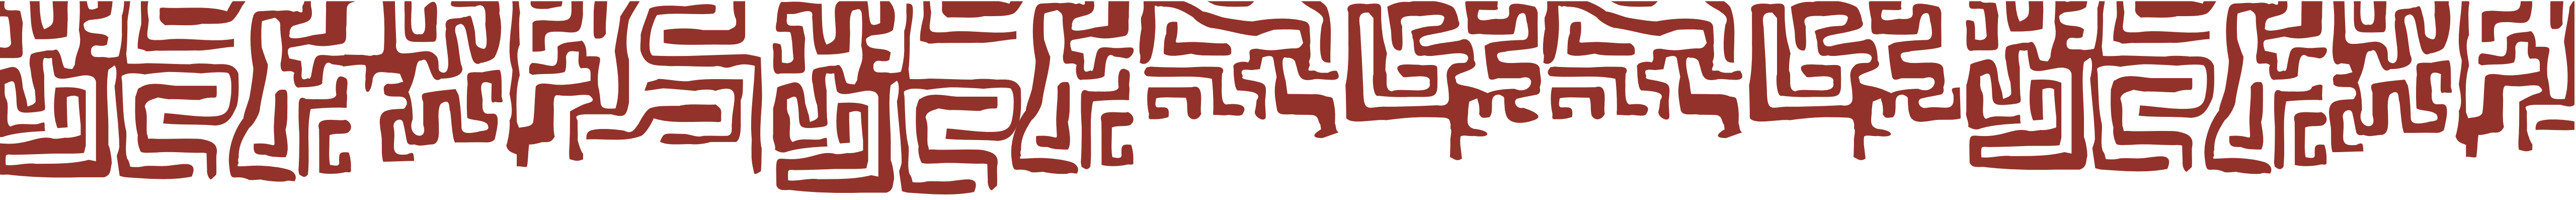

**By 2032, we want
15 to be up and
running.**

**They will form one
network, and pool
their funds.**

**This will give them
the dignity of full,
financial self-
sustainability.**

Sudan actual locations hidden for security reasons.

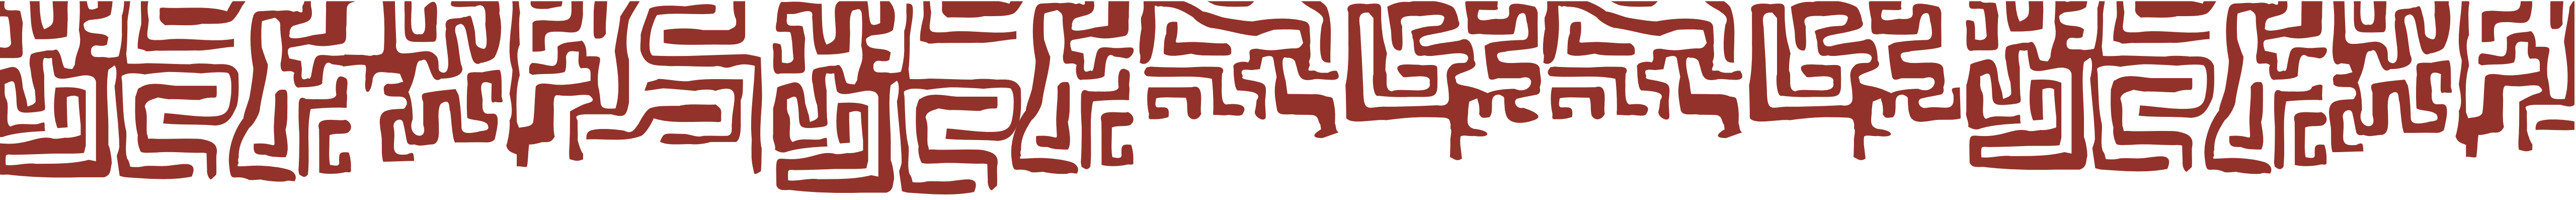

Fully, financially self-sustained.

No. More. \$. Needed. From. The. West.

Ever.

Dignity

בנייה ופיתוח מים

All 15 will have a water system.

A 10,000 to 20,000 liter tank of clean water with multiple distribution points.

At our Nimule location, they have turned their water system into a revenue source as well.

Our Flagship, under construction, in Yei, South Sudan

All 15 will have a NEATS Extension Center, our bible school.

They'll each train a minimum of 30 church planters each year.

**15 Flagships x 30 New Planters
= 450 Church Planters,
each year.**

Each will have a radio tower and small station to broadcast to the local community.

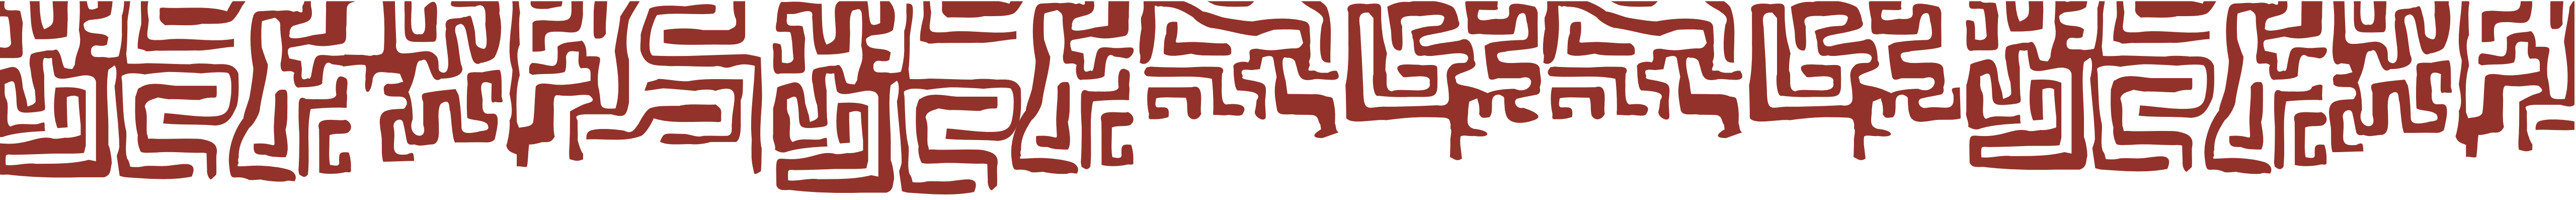

Terrestrial radio is still effective in our context.

**The expectation is for each
Flagship Church to plant at
least 50 new churches.**

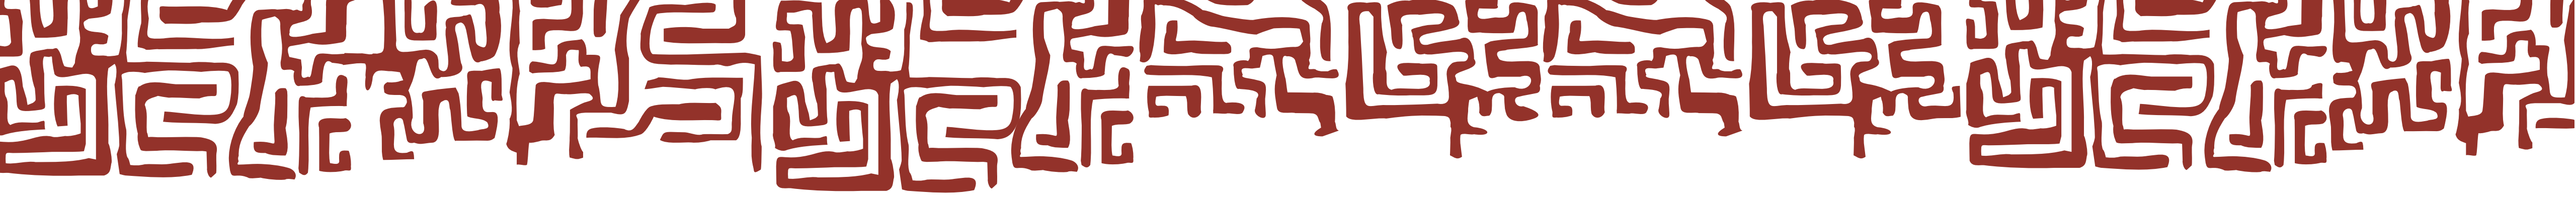

**15 Flagship Churches X 50
new churches = 750 new
churches!**

Progress

We've already begun.
This is as of April 2024

Progress

In Nimule, the church grew from 150 to 250 members in the first six months. In March of 2024, the secondary school opened, and they installed external water taps. These taps are free for widows, orphans, and the very poor, but the charge the remaining members of the community for an additional revenue source.
